3 on 3 Overtime For Playoffs

A five-minute 3 on 3 sudden death overtime will occur if a game ends in a regulation tie. If still tied after the 3 on 3 overtime, then a three man shootout will occur followed by a sudden death shootout. During the sudden death shootout, there is no limit on which player shoots and how many rounds they shoot for.

Full details are disclosed below:

- 1) Teams play an additional overtime period of not more than five (5) minutes with the team scoring first declared the winner.
- 2) The overtime period will be played with each team at 3 on 3 manpower (plus goaltender) for the five minute period.
- 3) At no time shall a team have fewer than three players on the ice. If a penalty occurs in overtime, the play will shift to a 4 on 3 man advantage.
- 4) If the game remains tied at the end of the five minute overtime period, the teams will proceed to a three round shootout. After each team has taken three shots, if the score remains tied, the shootout will enter the "sudden death format."
- 5) At the end of regulation, there will be no further ice surface maintenance for the overtime or shootout. Ice will only be made after completion of the game.
